Dear Outdoor School Parent:

This year your sixth grader will have the opportunity to participate in the Outdoor School program. The Outdoor School program is a field based environmental education program offered by the Multnomah Education Service District (MESD).

Your child will be participating in this week long residential program that allows them to explore the natural world, meet other sixth graders from around the county, and work with high school students in their living groups and in the field.

A Site Supervisor will be coming to your child's school

on _____, at _____, in room _____.

The visit will consist of a slide show about the Outdoor School site, talking with the students about what to expect, what to bring, items to leave at home, and answers to any questions that they have about the program.

This is an informational presentation, and we try to involve you as much as we can in your child's Outdoor School experience. If you have the opportunity, please attend this presentation so that the Site Supervisor can address your questions personally. If you have any questions at any time about this program, please call the MESD Outdoor School office at 503-257-1600.

We look forward to seeing you there!

The Site Supervisor Staff
